

City of Bolivar
Bolivar, MO City Hall Roof Sealant Specs
Bids Due 12/2/14 2:00 pm

The City of Bolivar is currently looking to restore/recoat the metal roof at Bolivar City Hall, 345 South Main, Bolivar, MO. The roof was installed when the building was new in 1993. Roof size is estimated at 83 sq.

City of Bolivar is requesting a Energy Star Rated Product, Similar to a Polyurethane Modified Acrylic roof coating or better.

Please include Resin type, fire rating, color, thickness of coating, number of coats, solar reflectivity, life expectancy and the length of warranty.

Alternate Bid: City of Bolivar requesting replacement or corrective measures to existing roof vents and end vents to prevent rain from entering attic area.

Any interested parties are free to call the office of City Clerk to measure and look at the current roof and needs.

Please note any variances in your bid to any of the bid items due to manufacturer specs or possible upgraded features.

The City of Bolivar reserves the right to reject any and all proposals and to waive technicalities.
